

Oct 25, 1942.

Dear Friend Abe, — I was out of the city when you were in Pittsburgh. Had I known you were coming to Ogh. I would have stayed home. Sonny told me of your conversations. As he explained things to me I am heartily in accord with them as you will see when I make my resume of the season in next week's Courier.

Sonny and I are coming over to see you. Let me know when you can have Cubans and Black Yanks

in a position to talk sense, as  
you have outlined it.

The only restriction I personally have  
is that we pick a man who has  
the ear of Washington Government  
Officials, knows baseball and has  
the time to take care of all eventua-  
lities, no matter how small.

I am certainly dissatisfied at the way  
our President did not show up at the game  
in Cleveland after getting the money he got  
at the East-West game.

I talked to Pompey. He looks at things like you.  
I am afraid of Black Yanks as I think Sumner  
will do anything if money is shoved him.

Ed will go along if the wind shows there  
are four votes as he was pretty much dis-  
gusted at being left to catch all the hell which  
he figures should have been given the President  
Yours Curre
